

Omid Asadi

Full Stack Developer (React, TypeScript, Node.js, PostgreSQL, AWS)

Irvine, CA | (951) 505-7539 | omid.develops@gmail.com | [Github](#) | [LinkedIn](#) | [Portfolio](#)

I am a Full Stack Developer specializing in **React**, **TypeScript**, **Node.js**, **PostgreSQL**, and **AWS**. My current interests include **Next.js** and **Python**. I have about 2 years of experience in the industry and I have built applications related to sports betting, cryptocurrency, productivity journal software, and I'm currently building multiple Chrome extensions.

Projects

Let's Parlay ([Code](#) | [View Site](#))

February 2024 - Present

A full-stack web application built with **React**, **TypeScript**, **Tailwind CSS** and **Vite** on the front-end; **Node.js**, **Express.js**, and **PostgreSQL** on the back-end, while utilizing the flexibility & reliability of **AWS EC2** for deployment

- Utilized **React Router** and **Context API** for streamlined navigation of live sports betting odds using *the-odds-api*
- Constructed **backend** with **Express** and interfaced with **PostgreSQL** through the **pg library**
- Implemented authorization using **JSON Web Tokens** and **Argon2** password **hashing** for enhanced security
- Provided a selection of MMA matchups for users to bet on, using \$5,000 of virtual funds and zero risk

Defi-City ([Code](#) | [View Site](#))

November 2023 - January 2024

A **React**, **TypeScript**, **Tailwind CSS** web application, using **Vercel's** lightning-speed front-end deployment

- Created a **React/TypeScript** application presenting real-time cryptocurrency data powered by **CoinGecko API**
- Enabled watchlist creation and management using **React hooks**
- Utilized **Victory library** for line charts and visualization of cryptocurrency statistics over a seven-day period

Experience

Shift Supervisor | Amazon | Eastvale, CA

Oct 2019 - Oct 2023

- Guided 60+ associates as Stow Process Guide to meet and **surpass** department goals
- **Revamped** the onboarding process, training 200+ new hires in stow **productivity**, **quality**, and **safety** standards, resulting in a **35% performance increase** in production within their first month
- Supported inbound project to **eliminate the occurrences of DPMO (defects per million orders) misses for over a year**, effectively leading our team to the **#1 building in the region**

Revenue Recovery Supervisor | UPS | Richmond, CA

Nov 2017 - July 2018

- **Led a team of 15** warehouse workers within the Richmond Distribution Center **Revenue Recovery** team
- Responsible for payroll, training, staffing and ensuring that our department's and the entire facility's goals were met in a very rapidly moving environment

Quality Assurance | Samsung Research America | Mountain View, CA
